Medical & Health Wellness

„I have no time, I am stressed out!“ – Who does not know this often used sentence? Our body reacts on long time stress with pain and ache: chronic head ache, insomnia, back pain, the sensation of being weak and burnt out are only some of the common disease of civilisation.

More space for the own “ego”

The Wellness movement started acting against these common habits and tries to focus again on our own well-being. This is the reason, why we developed some new packages with medical assistance. Your health will be the central theme of your stay in our Belvita Hotel Adria. Our programmes and activities are based on a holistic and scientifically established knowledge of health matters, combined with exercise therapy, physiotherapy, psychological and nutritionally therapeutic procedures. We offer you what you need to change your lifestyle (exercise, body care, nutrition, stress reduction) with instructions on how to continue in the long-term in everyday life.
